Compounding WORLD

The global digital magazine
and apps for polymer compounders

Compounding World is the monthly magazine providing business, industry and technology news for polymer compounders and masterbatch producers around the globe. It is accessed by thousands of readers every month free-of-charge online, on tablets, smartphones, and via our free apps for the iPad, iPhone and Android devices.

Compounding World delivers relevant and up-to-date information on the most important technical developments, market trends, business news and legislative announcements. And, unlike other general plastics magazines, it is 100% focused on the specific information needs of compounders and masterbatch producers.

Published by our expert editorial team at AMI - the leading provider of databases, market intelligence and conferences for the global plastics processing industries - *Compounding World* benefits from access to our detailed databases of senior decision makers at compounding and masterbatch/concentrate production sites across Europe, the Americas, Asia and the Middle East. These global databases include key purchasers of polymers, additives, compounding machinery and ancillary equipment built up over more than 30 years.

Looking to access this market? Our advertisements are very competitively priced and include links directly to your website. If you are selling machinery, ancillary equipment, materials, additives or services to compounders or masterbatch producers, then *Compounding World* is the vehicle to promote your business globally.

Compounding World offers:

- ✓ Comprehensive global coverage
- ✓ 100% focused on plastics compounding
- ✓ In-depth market knowledge
- ✓ Free access online and via apps
- ✓ Highly competitive advertisement rates
- ✓ Live weblinks from all advertisements
- ✓ App viewable without internet connection

Digital magazines for the digital age: online; on tablets; on smart phones

We lead the way with electronic magazines for the plastics industry

Email circulation: 29,639

App downloads: 13,363

Twitter followers: 18,525

Compounding World is a digital magazine for the digital age. It is available free-of-charge online using a standard internet browser and can also be read on the iPad, iPhone and Android-based devices using our free apps or HTML5 browser.

The **online edition** is hosted on the Yudu platform for digital magazines, which means there is no need for readers to download special software or large files. Subscribers are notified of each new edition by email and a simple click of a weblink takes them to the latest magazine. Our user-friendly interface allows them to browse and read the magazine just like a printed product, but with the additional benefits of online delivery and digital interactivity. Readers can easily forward links to articles, allowing them to share *Compounding World's* valuable content with colleagues, suppliers and customers. And they can

download the magazine as a PDF for storage and printing.

The *Compounding World* apps for the **iPad, iPhone** and **Android** devices are proving very popular with readers around the world. The dedicated apps have been downloaded more than 13,363 times since their launch in 2012, and more subscribers are signing up every day. Our apps are extending the reach of the magazine beyond its already substantial online readership, providing even more value for advertisers.

We use our @PlasticsWorld **Twitter** feed to keep our readers up to date with the latest plastics industry news and to let them know whenever we publish a new edition of *Compounding World* magazine. To date, @PlasticsWorld has attracted a global following of more than 18,525 people and is one of the most popular sources of plastics industry information on the social media site.

The people behind **Compounding WORLD**

Chris Smith / Editor-in-Chief

Chris graduated in materials science and worked in the plastics industry prior to moving into B2B publishing. He has been writing about plastics for more than 25 years and has extensive experience in launching and chairing international industry conferences.

Email: chris.smith@ami.international

Peter Mapleston / Technology Editor

Peter has been writing for international plastics magazines for more than 30 years. He graduated in polymer science and technology in the UK, before settling in Italy. Peter has been writing for *Compounding World* since 2013.

Jennifer Markarian / Contributing Editor (USA)

Jennifer is a Penn State chemical engineering graduate and journalist who has been writing about plastics technology for more than 15 years.

Based in the USA, she has been writing for *Compounding World* since its launch in 2008.

Mark Holmes / Contributing Editor (UK)

Mark is a freelance editor and journalist with more than 18 years' experience in writing and managing plastics industry publications. Based in the UK, Mark is a graduate in chemical engineering and has been writing for *Compounding World* since 2015.

Emily Hocking / Contributing editor

Emily graduated in engineering design and worked in the composites research and development industry across multiple sectors before moving to AMI. Her role includes writing reports and articles and developing AMI's expertise in the global composites market.

Andy Beevers / Director, Events & Digital Magazines

Andy is a chemical engineering graduate with more than 25 years plastics publishing experience. He is responsible for AMI's digital publishing and international plastics conference activities.

March 2019

Twin-screw extruders
Natural fibres
Special effect pigments
Computer modelling software

April 2019

Thermally conductive compounds
Materials testing
PPS Compounds
Processing aids/lubricants
Compounding World Expo USA preview

May 2019

Wire and cable
Compatibilisers/coupling agents
Industry 4.0/plant management
High density compounds
Chinaplas preview

June 2019

PVC additives
Functional fillers
Cleanroom compounding
Clarifiers and nucleators
Compounding World Expo USA review

July 2019

Antimicrobials and biocides
Screenchangers/melt filters
Colour measurement
Feeding and dosing

August 2019

PVC plasticisers
Wood-plastic composites
Screws and barrels
Reactive compounding
K2019 visitor guide

September 2019

Colour pigments
Bioplastic compounding
Antioxidants and UV stabilisers
Purging and cleaning
K2019 show preview part 1

October 2019

TiO₂/white pigments
Compounding for 3D printers
Alternative compounders
Recycling additives
K2019 show preview part 2

November 2019

Carbon black
Polymer reinforcement
Active additives
Continuous/batch mixers
K2019 show news

December 2019

Flame retardants
Laboratory compounders
Nanocomposites
Accelerated testing
K2019 show review

Plus in every issue:

- ✓ Compounder of the month - company profile
- ✓ Business and legislative news
- ✓ New machinery and ancillaries
- ✓ New additives and materials
- ✓ Forthcoming events
